1. Abstract

WorkFlo is an employee management system designed to manage the operations and processes of a company. The system provides a centralised platform for managing various aspects of the company such as its employees, departments, attendance, leave, projects, and financials, and facilitates communication between managers and employees.

The system is designed to be used by organisations of all sizes, with features that can be customised to meet the specific needs of the organisation. It will streamline operations and improve efficiency, leading to increased productivity and profitability. It will also provide valuable insights into organizational performance.

2. Introduction

Module 1: Employee

This module contains employee data such as personal information, job details, salary information, and contact details. It also includes features for employee self-service, such as updating personal information, uploading documents, and changing the account password. Admins can use this module to view employee records and manage employee performance.

Module 2: Attendance

This module allows admins to add employee attendance and working hours. The module can also generate reports for admins to monitor attendance trends and identify patterns of absenteeism.

Module 3: Leave

This module enables employees to apply for leave, view their leave balances and history, and check the status of their leave requests. Admins can approve or reject leave requests. This module also has a calendar showing holidays and events that apply to the organization.

Module 4: Projects and Tasks

This module allows admins to assign tasks to employees, track project progress, and generate reports on completed tasks and project timelines. Employees can view their tasks, deadlines, and progress indicators.

Module 5: Payroll

This module automates the process of calculating employee salaries and generating pay slips. It can also handle tax deductions, reimbursements, and other salary-related transactions.

Module 6: Loans

This module allows admins to grant loans to employees and view their loan status, track loan history, and calculate loan repayments.

Module 7: Assets and Logistics Support

This module helps manage company assets by enabling admins to assign assets to employees, track asset allocation, and manage asset maintenance issues. Admins can view the asset inventory and track asset depreciation.

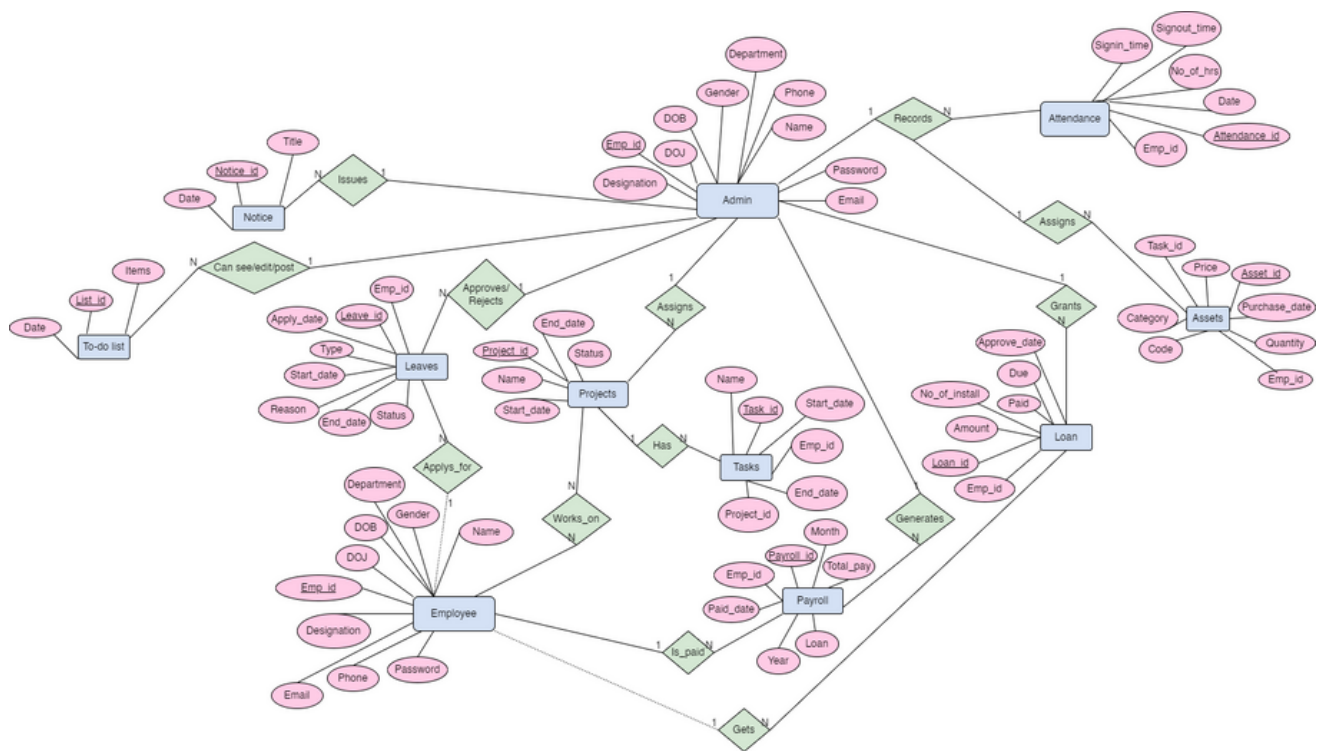

Module 8: Notice Board

This module allows managers to post notices and announcements for all employees to view. Employees can view and comment on the notices.

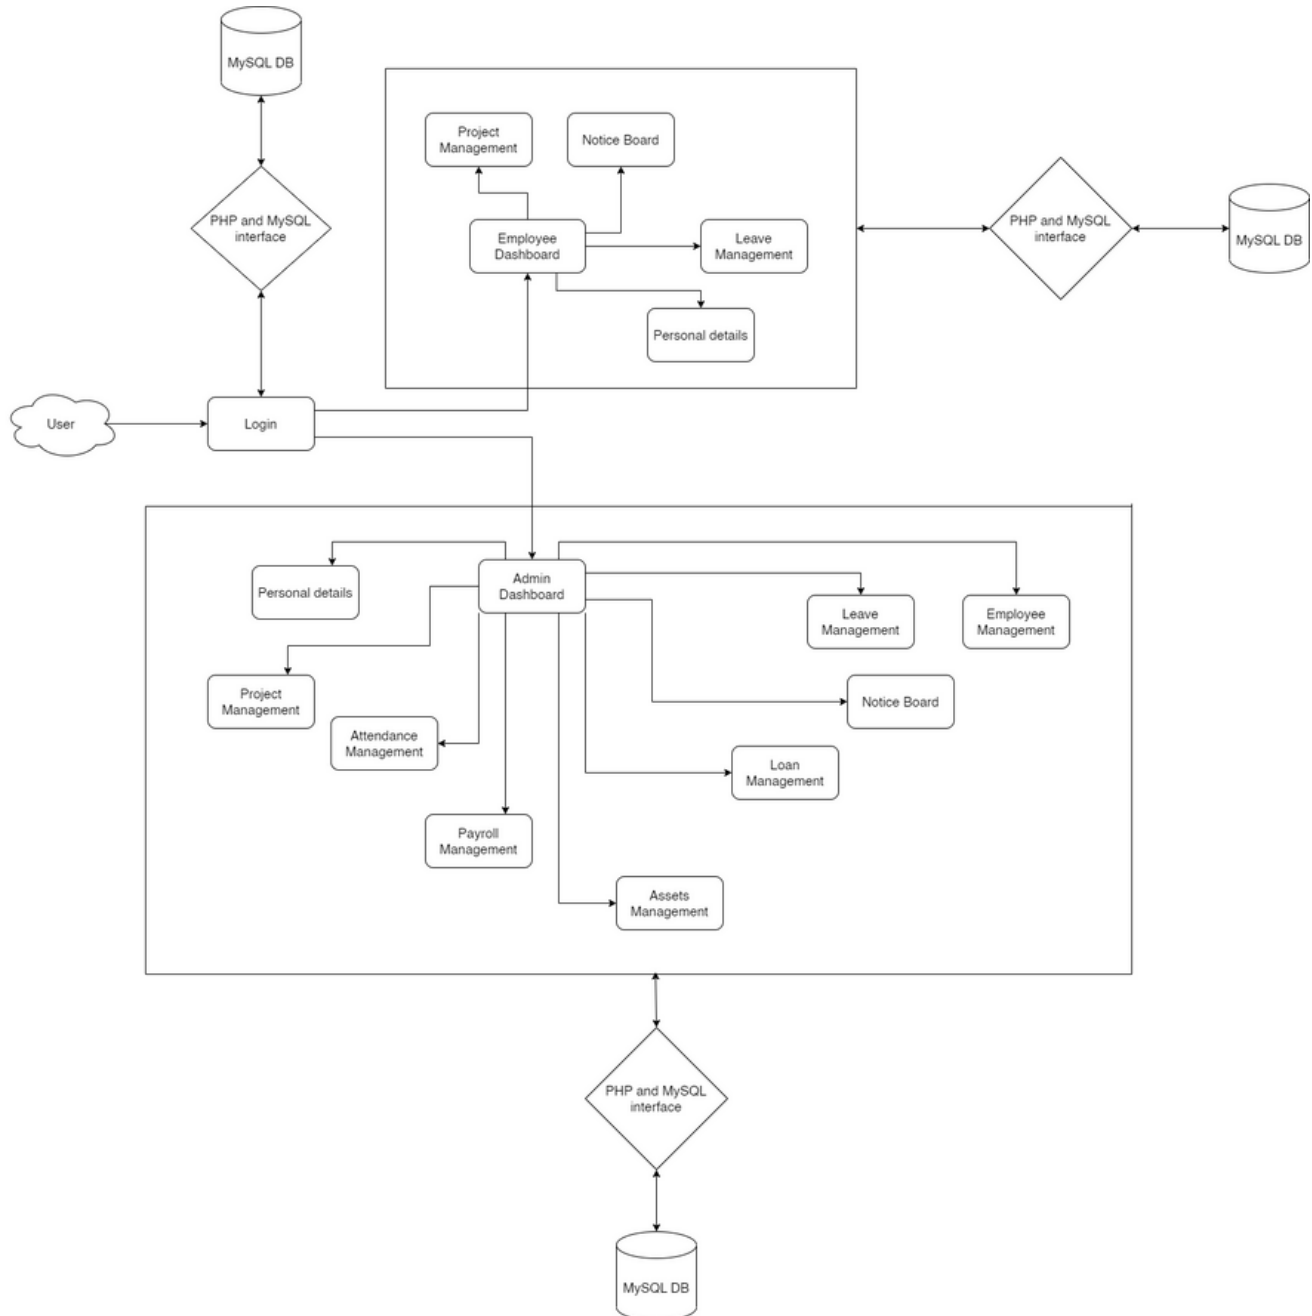

Module 9: Login and Logout

The system supports two types of user privileges, Employee and Admin. It provides the facility for admins and employees to log in and then view the dashboard displaying the total number of employees, leaves taken, loans granted, current projects, and notices. Admins also have the option of adding another person as an admin or employee to the system and maintaining the database of the organization containing the departments and designations,

7. Screenshots

The screenshot shows the WorkFlo Dashboard. The left sidebar contains the WorkFlo logo, an Admin Account profile, and a navigation menu with items: Dashboard, Organization, Employees, Attendance, Leave, Project, and Payroll. The main content area is titled 'Dashboard' and includes a breadcrumb 'Home > Dashboard'. It features four summary cards: '6 Current Employees' (with a 'View Details' link), '1 Approved Leaves' (with a 'View Details' link), '0 Running Projects' (with a 'View Details' link), and '1 Granted Loans' (with a 'View Details' link). Below these are four colored boxes: '1 Former Employees' (purple), '0 Pending Leave Application' (blue), '1 Upcoming Project' (red), and '0 Completely Paid Loans' (green). The bottom section is divided into two: 'Running Project/s' with a table header (Title, Start Date, End Date) and 'To Do list' with the text 'List of your next task to complete'.

The screenshot shows the WorkFlo Department Management page. The left sidebar is identical to the dashboard, but the 'Organization' menu item is expanded, showing 'Department' and 'Designation'. The main content area is titled 'Department' with a breadcrumb 'Home > Department'. It is split into two panels. The left panel, 'Add Department', has a 'Department Name' input field and 'Save' and 'Cancel' buttons. The right panel, 'Department List', contains a table with the following data:

Department Name	Action
Administration	 
Finance, HR, & Administration	 
Research	 
Information Technology	 
Support	 
Network Engineering	 
Sales and Marketing

The screenshot shows the 'Assets Category List' page in the WorkFlo application. The left sidebar contains a menu with 'Assets' selected, which has a sub-menu with 'Assets Category', 'Asset List', and 'Logistic Support'. The main content area has a header 'Assets' and a breadcrumb 'Home > Assets Category'. Below the header is a '+ Add Category' button. The main section is titled 'Assets Category List' and contains a table with columns: ID, Type, Name, and Action. The table has one entry with ID 1, Type ASSETS, and Name Computer systems. Below the table, it says 'Showing 1 to 1 of 1 entries' and has pagination buttons 'Previous', '1', and 'Next'. There are also buttons for 'Copy', 'CSV', 'Excel', 'PDF', and 'Print' at the top of the table.

The screenshot displays the WorkFlo application interface. On the left is a sidebar menu with options: Leave, Project, Payroll, Loan, Assets (selected), Notice, and Settings. The main content area is titled 'Logistic Support' and includes a '+ Add Logistic Support' button. Below this is a 'Logistic Support List' table. The table has columns: Assets, Assign User, Task Name, Qty, End Date, Refund Date, Refund Amount, and Action. A single entry is shown for a 'Laptop' assigned to 'Deepika Bhukya' with the task 'Develop the b...'. The table includes a search bar, export buttons (Copy, CSV, Excel, PDF, Print), and pagination controls showing 'Showing 1 to 1 of 1 entries'.

Assets	Assign User	Task Name	Qty	End Date	Refund Date	Refund Amount	Action
Laptop	Deepika Bhukya	Develop the b...	1	2023-04-30			

The screenshot displays the WorkFlo application interface for the 'Notice Board' module. The sidebar menu is the same as the previous screenshot, but 'Notice' is now selected. The main content area is titled 'Notice Board' and includes a '+ Add Notice' button. Below this is a 'Notice' table. The table has columns: SI, Title, File, and Date. Three entries are listed, each with a title, a file link, and a date. The table includes a search bar, export buttons (Copy, CSV, Excel, PDF, Print), and pagination controls showing 'Showing 1 to 3 of 3 entries'.
